

Perform-To-Serve Integration into Fleet RIDE

Fleet RIDE – Training Materials

PTS Way Ahead

- Integrate PTS into Fleet RIDE (1 Oct 2010)
- Base Eligibility on End of Obligated Service with extensions (SEAOs). Applications for EAOS/PRD (Special Circumstance) will still be allowed based on certain criteria.
- Modify Algorithm to include additional performance criteria
 - Performance Evaluation average for up to 5 most current evaluations
 - PFA – number of PFA failures within a four year period
- Incorporate Year Group management into Rack and Stack (PTS/Fleet RIDE merger)
- Populate application with authoritative data from Corporate sources
 - As the integrity of corporate data matures, additional elements will be populated (i.e. Evaluations, PFA)
- Provide ability for Commands to view in-rate, convert out and convert in quotas on a monthly basis
- Allow system to remain open for new applications during monthly processing
- Submit Applications for either AC or RC, not both

Initial Operating Capability

- Single system for identification of qualified PTS opportunities, submission of applications, and ECM decision.
- Pre-populated PTS applications for all Sailors between 6 - 15 months of SEAOS
- Batch submission capability to enhance Counselor productivity
- Robust reporting
 - Compliance, results and execution reporting
 - OPNAV/USFF/CPF/ISIC/Unit level

Streamline the Process – Better Program Management Capability

Results

- Commands will have the ability to review their results via the Command Results Report
- The system will generate official letters to document specific results of each application (approve, deny, approve pending documentation). This will be used as authoritative documentation official notification, no Naval Messages will be transmitted.
- Conversions requiring additional paperwork will receive an approval pending documentation status with official letter documentation. When final determination is made, the final approve or deny status will be recorded and a new letter will be generated
- Approved Conversion via “A” School list is forwarded to detailers for school seat assignments and orders.

End State Benefits

- Continuous career counseling system that optimizes member's FIT to viable career paths
- Single, consistent process for comprehensive rating eligibility screening
- Integration of Apprentice rating entry and Sailor conversion request and approval processes
- RIDE-optimized improvements in Navy-wide Advancement Exam success, follow-on training success, PTS approval rates, and PTS reenlistments
- Legacy system reduction and reduced maintenance tail

De-conflicting processes and systems

Submitting Applications

Fleet RIDE – Training Materials

Submitting an Application

- Each Sailor can have one, and only one, PTS application. The application can be for either *Active Duty* or *Selective Reserve*.
- Submit a PTS application through the:
 - **PTS Application Browser** *if the application is automatically generated by Fleet RIDE (06 to 15 months of SEAOS).*
 - Single submission
 - Batch Submission
 - **Sailor Browser** *if the application is not auto-generated by Fleet RIDE.*
Use the Sailor Browser if you are submitting an application for a special circumstance.

NOTE: Contact the PTS Helpdesk if a Sailor does not appear on the PTS Application Browser or the Sailor does not appear on the Sailor Browser.

Batch Submitting Applications

- Batch submitting applications allows you to resubmit the applications that were not approved during the last Rack & Stack.
- Fleet RIDE assigns the status *Saved Action Required* to the applications that were not approved.
- Before you batch submit applications, validate the applications. Validating an Application for Batch Submission performs the following functions:
 - **Verifies the application is complete.**
 - **Sets the CO Recommends check box.**
